

ANALYSIS ON PORT OF PLOČE

Study on possible developments of direct Bosnian and Herzegovina interest on the Croatian Port of Ploče for the passenger and mainly freight transport

Port of Ploče is the Southern terminal of TEN-T Corridor 5c
 >> Bosnia Herzegovina is a land-locked country

CRITICALITIES (for freight)

- No direct container lines
- No international ferry lines
- Low frequency of calls
- small number of transhipped containers
- berth length / small ships size
- mostly pro-import balance of traffic

OPPORTUNITIES FOR PORT OF PLOČE

- Container terminal completion & extension
- Bulk cargo terminal increased capacity
- New port entrance, equipment & IT modernisation
- Adoption of Port community system
- Construction of a LNG terminal

For passengers:

- Possible new Ro-Pax service to Italy: tourist orientated service, faith tourism (pilgrims) for Medjugorje (BE)
